JLU at a Glance

About Jilin University

❄ Jilin University, located in Changchun City, Jilin Province, was founded in 1946. Currently, there are 71,920 full-time students and 6,524 faculty members in total, among which there are 2,062 professors and 1,137 doctoral advisors. There are 10 academicians of the Chinese Academy of Sciences or the Chinese Academy of Engineering, 33 dual-employed academicians, 7 senior professors philosophical and social sciences, 49 candidates in the "Thousand Talents Plan" and 20 in the "Ten-Thousand Talents Plan". In 2017, Jilin University was selected as one of the universities under the Double First Class University Plan and was incorporated into the list of 36 first-class Category A universities. Five disciplines, including archeology, mathematics, physics, chemistry, and materials science and engineering were selected as First Class Disciplines. According to 2018 Evaluation and Study Report of Universities in China released by the Chinese Universities Alumni Association, Jilin University ranks the 10th among the top 100 Chinese universities.

❄ The university is now home to 5 national key laboratories, 1 national engineering laboratory, 6 state-local joint engineering laboratories, 1 national engineering and technology research center, 6 humanities and social science key research bases of the Ministry of Education, 10 key laboratories of the Ministry of Education and 5 engineering research centers of the Ministry of Education.

❄ Jilin University, focusing on the cooperation with prestigious schools, has established cooperative relations with 282 colleges, universities and scientific research institutions in 39 countries and regions. At present, there are more than 2,300 international students from 122 countries and regions in the school for long-term or short-term study. They are distributed in 47 departments, including 181 doctoral students, 408 postgraduate students, and 970 undergraduates. Jilin University now has 6 sub-districts and 7 campuses, covering an area of more than 6.11 million square meters. The school buildings cover an area of 2.74 million square meters. We provide international students with the best language learning environment, the most professional teachers, the most flexible curriculum, the most dedicated services, and the most advanced learning and living facilities.

JIU Advantages

1-A wide range of disciplines

❁ Jilin University has a wide range of disciplines under 44 colleges, covering 13 major categories including philosophy, economics, law, pedagogy, literature, history, science, engineering, agronomy, medical science, management, military science, and arts. There are 129 undergraduate programs, 291 accredited postgraduate programs, 244 accredited doctoral programs and 42 centers for post-doctoral studies. Based on the results of the fourth round of national disciplinary evaluation, Jilin University has 11 disciplines classified as A (including A+, A, A-). They are respectively philosophy, law, political science, Marxist theory, archaeology, mathematics, physics, chemistry, mechanical engineering, computer science and technology, and business administration. In addition, 35 disciplines are classified as B (including B+, B, B-).

2-Personalized training programs

❁ Jilin University offers different training programs for students in different majors. Teachers of different disciplines give lectures according to specific circumstances: professors give lectures for major courses while postgraduates teach some of the optional courses. We offer targeted, flexible, and diversified student services for students in different majors. We appoint tutors for students and provide one-on-one Chinese tutoring and other teaching services.

3-Rich library collection

❁ The university has a total of 7 libraries and 7.57 million books, and has been designated as libraries for the UNESCO, the United Nations Industrial Development Organization and the World Bank. The northeast center of CAIS (China Academic Library & Information System) approved by the Ministry of Education and built in our school is one of the seven major centers in the country. The collections of local Chronicles and genealogical materials, rubbings, ancient scripts and literatures rank high among university libraries. The university has subscribed 1,268 foreign language periodicals, and 4,914 Chinese newspapers and periodicals. The libraries highly value the construction of digital file resources. 48 Western language literature databases including Web of Science and EI, 14 Chinese databases such as CNKI, and 1.4 million e-books through Chaoxing and C4DSKY have been purchased. We have also developed 12 databases by ourselves covering Northeast Asia Research, geoscience, automobiles, and Manchuria Railway.

4-Complete living facilities

❁ The university has 7 international student apartments, located in various campuses, with a total of 845 rooms and 1,506 beds. There are gyms, swimming pools, soccer field, basketball court, volleyball court, and fitness rooms, among other venues with a full range of sports facilities. The campuses are shaded by trees, decorated by blooming flowers, and informed by a cultural vibe. Different campuses have different architectural styles, all elegant and unconventional. Whatever the season is - spring, summer, autumn, or winter, Jilin University is an ideal place for students to study and do research.

❁ There are student canteens in each campus, including 4 in the central campus (enough to serve over 10,000 people). There are restaurants in some international student apartments. Meanwhile, there are speciality restaurants off campus, ready to serve the students with rich choices.

5-Colorful campus activities

❁ Student associations

A number of student associations of different types are active in the university. Currently there are 256 registered student associations in 7 major categories namely science and technology, language, practice, literature and art, sports, public welfare, and academics. The number of student members in these associations reaches 33,841, accounting for about 79% of the junior college and undergraduate students.

The College of International Education has established three special associations, namely the International Students Association, the Association for Chinese and Foreign Students Buddy Program, and the International Students Volunteer Association. The associations have become good platforms for international students and local students to communicate with each other.

❁ Distinctive curriculum & extracurricular activities

The College of International Education provides one-on-one tutoring for international students in Chinese writing and basic courses and offers optional courses such as Chinese medicine, traditional Chinese history and culture, credit courses such as martial arts and swimming, and other courses such as practical Chinese. In every year, colorful activities such as recitation, sports, singing competition, soccer games are carried out regularly. In the meantime, voluntary activities such as visits to orphanages and nursing homes and voluntary teaching are organized, enriching the life of international students.

Chinese cultural experience

The College of International Education organizes international students to participate in the Spring Festival Gala, to experience cultural activities during the Dragon Boat Festival, to visit historical spots and the Arts and Crafts Museum of Jilin Province, and to carry out activities such as "Into the City of Automobiles" so as to further strengthen international students' understanding of Chinese culture.

Association for Chinese and Foreign Students Buddy Program

The College of International Education arranges a learning partner for each new student and adopts a "one-on-one" pair learning mechanism to help international students adapt to the study and living in China as soon as possible.

Chinese contact families for international students

The College of International Education arranges Chinese contact families for international students at the beginning of the new semester to strengthen the understanding of Chinese society by international students, successfully building platforms for international students and Chinese family to exchange idea with each other.

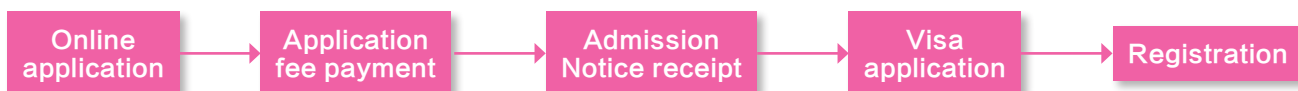

Student service

The university provides a free pick-up service for each international student who registers within a specified period of time in back-to-school season; during the school time, the university provides international students with services including psychological counseling and visa application. Meanwhile, international students will be assigned two full-time instructors and five doctoral students as part-time instructors. Daily teaching will be arranged by the corresponding training departments of the students. For international students studying the Chinese language, each class will be appointed a teacher in charge of a class and daily management to fully ensure the learning outcome.

New Policy of Entry and Exit of Foreign Personnel in Changchun New Area

New Policies for Exit and Entry of Foreigners in Changchun New Area

—Innovation/Entrepreneurship/Employment/ Policies for International Students

On December 12th 2017, preferential policies on exit and entry of Changchun New Area was implemented formally. For the international students with intention for innovation or entrepreneurship, they can apply for 2 to 5 years of valid private residence permits (adding "Internship") for graduation internship and innovation or entrepreneurship activities. During this period, those who are hired by the relevant organizations in Jilin Province can apply for work-type residence permit. Those international students who are invited to conduct internship by enterprises that have been recorded in the provincial Entry-Exit Administration Bureau of the Public Security Department may apply for short-term private affairs visa (adding "Internship") at the port of entry for internship activities. Those who are holding other types of visa can also apply to convert it into a short-term private affairs visa (adding "Internship") for internship.

10

City Introduction

About the city

❄ Changchun is the capital city of Jilin Province, a sub-provincial city, a major metropolis of type I, and a center city of the Northeast Asia Economic Circle. It is one of the central cities in northeast China identified by the State Council, an important industrial base, a well-known national historic and cultural city, and a national comprehensive transportation hub. Located in the key juncture of northeast China, Changchun is known as China's "City of Movies", "City of Automobiles", "City of Forest", "City of University" and a snowy resort in China. Changchun is honored as "Spring City in Northern China" with excellent air quality throughout the year, ranking at the top among big cities in Asia in terms of urban greening rate and is one of China's four "National Garden Cities". It has been selected as one of "China's Happiest Cities" for nine consecutive years. It ranked the sixth among top ten research cities according to Nature Index 2015 China.

❄ Changchun has solid foundation in science and technology education with 46 colleges and universities, and over 100 independent research and technology development institutions. It plays a leading role in optical electronics, laser technology, polymer materials, bioengineering and other fields, and has reached an international advanced level in some research.
