Jilin University is a national key comprehensive university under the direct administration of Ministry of Education in China, located in Changchun, Jilin Province. It was founded in 1946. In 1995, approved by State Education Commission of China, it was granted as one of the first “Project 211” universities; In 2001, Jilin University was listed as one of “Project 985” key construction universities; In 2004, it was approved as one of the universities under direct administration of the Ministry of Education of China; In 2017, it was rated as one of the universities for building world-class universities in the “Double World-class Initiative”.

Jilin University offers a wide range of disciplines, including 52 colleges or schools, covering 12 academic categories, namely, philosophy, economics, law, education, literature, history, science, engineering, agriculture, medical science, management, and art. There are 17 disciplinary fields in the top 1% of the ESI global rankings and 2 of them are ranked in the top 1%. There are 6,664 faculty members in total, among which there are 1,978 professors. There are 6 campuses, 7 school areas in our university. With colorful campus life, various activities such as International Cultural Festivals, Cultural and Art Performances, Sports Meetings, Cultural Experience Projects and Social Practice Activities are very popular among international students.

Changchun is the capital city of Jilin Province, Changchun is known as China’s “City of Automobiles”, “City of Forest”, “City of University” and is honored as “Spring City”. Changchun has four distinct seasons, fresh air and comfortable climate. It has been selected as one of “China’s Happiest Cities” for ten consecutive years.

As one of the “transportation hub” cities in China, Changchun enjoys convenient transportation, the direct flight from Changchun to Beijing takes only 2 hours, and the high-speed rail takes 6 hours. The urban rail transit is convenient.

Welcome to apply Jilin University!

Those who are unable to report to JLU on time due to some reasons should submit application in written form and supporting documents to the College of International Education for deferment of registration, which is to be approved by the College of International Education. Normally the registration can be postponed for up to four weeks. Those who do not report to JLU on time without prior notification, those whose application for deferment is not approved, and those who are approved to postpone the registration but fail to report to JLU within four weeks after deadline of registration are deemed as waiving their admission and scholarship qualification unless their absence is due to force majeure.

Chinese-taught Program

1 Master Degree

Study Period is 3 years
Marked with * is the available majors for Chinese Government Scholarship program application

School of Philosophy and Sociology	Sociology, Applied Psychology
School of International Chinese Language Education	Teaching Chinese to Speakers of Other Languages
School of Archaeology	Archaeology*
School of Economics	World Economics*
School of Law	Criminal Jurisprudence, International Law, Civil Law and Commercial Law
College of Public Administration	International Politics
College of Mathematics	Statistics, Probability and Mathematical Statistics
College of Physics	Applicate Physics*, Condensed Matter Physics, Optics
College of Chemistry	Chemistry and Physics of Polymers*, Inorganic Chemistry
School of Mechanical and Aerospace Engineering	Mechanical Engineering*, Industrial Engineering
College of Materials Science and Engineering	Materials Physics and Chemistry*
College of Automotive Engineering	Vehicle Engineering
College of Biological and Agricultural Engineering	Bionic Science and Engineering, Agricultural Mechanization Engineering
College of Communication Engineering	Information and Communication Engineering
College of Computer Science and Technology	Computer Science and Technology
College of Earth Sciences	Mineral Resource Prospecting and Exploration*, Land Resource Management*, Geology*
College of Geo-Exploration Science and Technology	Geodetection and Information Technology*, Solid Earth Physics*
College of Construction Engineering	Geological Engineering, Civil Engineering
College of New Energy and Environment	Environmental Science*, Environmental Engineering*
College of Instrumentation and Electrical Engineering	Instrument Science and Technology
College of Basic Medical Sciences	Pathogenic Organisms*
The First Norman Bethune Clinical Medical College	Surgery*, Internal Medicine*, Obstetrics and Gynecology
The Second Norman Bethune Clinical Medical College	Surgery*, Internal Medicine*, Obstetrics and Gynecology
The Third Norman Bethune Clinical Medical College	Surgery*, Internal Medicine*, Obstetrics and Gynecology
Hospital of Stomatology	Clinical Science of Stomatology
College of Veterinary Medicine	Veterinary Medicine

School of Philosophy and Sociology	Philosophy of Marxism, Chinese Philosophy, Foreign Philosophies, Ethics, Philosophy of Science and Technology, Sociology, Social Security, Physical Sociology
School of Archaeology	Archaeology*
School of Economics	World Economics*
School of Law	Intellectual Property Law, Jurisprudence, Legal History, Constitutional Law and Administrative Law, Criminal Jurisprudence, Civil Law and Commercial Law, Science of Procedure Laws, Science of Economic Law, International Law
College of Public Administration	Political Theory, International Politics, Administration Management, International Relations, Law and Political Science, Emergency Management
College of Mathematics	Statistics, Fundamental Mathematics, Computational Mathematics, Probability and Mathematical Statistics, Applied Mathematics, Operational Research and Cybernetics
College of Physics	Theoretical Physics, Particle Physics and Nuclear Physics, Applicate Physics*, Condensed Matter Physics, Optics, Acoustics
College of Chemistry	Inorganic Chemistry, Analytical Chemistry, Organic Chemistry, Physical Chemistry, Chemistry and Physics of Polymers*, Chemistry (Applied Chemistry)
School of Mechanical and Aerospace Engineering	Mechanical Manufacture and Automation, Mechatronic Engineering, Mechanical Design and Theory, Mechanics, Industrial Engineering
College of Materials Science and Engineering	Materials Physics and Chemistry*, Materialogy, Materials Processing Engineering
College of Automotive Engineering	Vehicle Engineering, Auto Body Engineering, Power Engineering and Engineering Thermal Physics
College of Biological and Agricultural Engineering	Bionic Science and Engineering, Agricultural Mechanization Engineering, Agricultural Biological Environmental and Energy Engineering, Agricultural Electrification and Automation
College of Communication Engineering	Information and Communication Engineering, Control Science and Engineering
College of Electronic Science and Engineering	Physical Electronics, Circuits and System, Microelectronics and Solid State Electronics
College of Computer Science and Technology	Computer System Architecture, Computer Software and Theory, Computer Applied Technology, Bioinformatics, Software Engineering
College of Earth Sciences	Mineral Resource Prospecting and Exploration*, Land Resource Management*, Geology*
College of Geo-Exploration Science and Technology	Geodetection and Information Technology*, Solid Earth Physics*, Geo-Information Engineering*
College of Construction Engineering	Geological Engineering, Civil Engineering
College of New Energy and Environment	Environmental Science*, Environmental Engineering*, Hydrology and Water Resources*, Ground Water Science and Technology, Geological Resources and Geological Engineering
College of Instrumentation and Electrical Engineering	Measuring and Testing Technologies and Instruments, Precision Instrument and Machinery, Detection Technology and Automatic Equipment
College of Basic Medical Sciences	Pathogenic Organisms*, Immunology, Pathology & Pathophysiology, Human Anatomy Histology and Embryology, Pharmacology
The First Norman Bethune Clinical Medical College	Surgery*, Internal Medicine*, Cell Biology, Biochemistry and Molecular Biology, Immunology, Neurology, Dermatology and Venereology, Medical Imaging and Nuclear Medicine, Clinical Laboratory Diagnostics, Oncology, Anesthesiology, Emergency Medicine
The Second Norman Bethune Clinical Medical College	Surgery*, Internal Medicine*, Neurology, Biochemistry and Molecular Biology, Pathology and Pathophysiology, Obstetrics and Gynecology, Oncology, Otolaryngology, Medical Imaging and Nuclear Medicine
The Third Norman Bethune Clinical Medical College	Surgery*, Internal Medicine*, Anesthesiology, Neurology, Dermatology and Venereology, Medical Imaging and Nuclear Medicine, Otolaryngology, Oncology
College of Veterinary Medicine	Veterinary Medicine

English-taught program

1 Master Degree

Normal study period is 3 years, parts of the study period is 2 years

Marked with * is the available majors for Chinese Government

Scholarship program application

School of Economics	World Economics*, International Business*(2 years)
School of Law	International Law
School of International and Public Affairs	International Relations*(2 years)
College of Automotive Engineering	Vehicle Engineering
College of Biological and Agricultural Engineering	Bionic Science and Engineering
College of New Energy and Environment	Environmental Science*, Environmental Engineering*, Hydrology and Water Resources*, Ground Water Science and Technology
School of Public Health	Master of Public Health (2 years)
College of Basic Medical Sciences	Pathogenic Organisms*
The First Norman Bethune Clinical Medical College	Surgery*, Internal Medicine*, Obstetrics and Gynecology
The Second Norman Bethune Clinical Medical College	Surgery*, Internal Medicine*, Obstetrics and Gynecology
The Third Norman Bethune Clinical Medical College	Surgery*, Internal Medicine*, Obstetrics and Gynecology

2 Doctoral Degree

Study Period is 3 years

Marked with * is the available majors for Chinese

Government Scholarship program application

School of Economics	World Economics*
School of International and Public Affairs	International Relations*
College of Materials Science and Engineering	Materials Physics and Chemistry
